

Aquamira Frontier Emergency Water Filtration System

The Frontier Emergency Water Filter System is ideal for hiking, travel, and emergency preparedness. It is the perfect addition to your 72 hour emergency kit. One unit will filter up to 30 gallons (110L) of water. The Frontier Filter is tested and certified to remove 99.9% of *Cryptosporidium* and *Giardia*. The Frontier Emergency Water Filter System is also easy to operate, just attach and expand the straw, submerge the filter end into the water source, and drink through the straw. Ultra light and compact, the Aquamira Frontier Emergency Filter System weighs less than one ounce and easily slips into a day pack, shirt pocket or travel luggage and is always ready when you need it.
